

Graduate Culinary Economics

Today's lecture is about: LETTUCE!

Author: Chef

Kitchen HQ, Spring 2017

Based on Oliver, Jamie (2012)

June 2, 2017

Table of contents

preparing the ground

harvest

Dinner

Title.

- hey
- yes whats up mate.
- **yes whats up** mate.

$$x + y = 3x^5 \quad (1)$$

$$\beta + y = 3y^5$$

- $x^2 + y^2 = z^2$
- **important** word.
- **very important** word.
- That's a `link!`
- going on

frame 2

Let me say this first.

- 1 now this is key.
- 2 and as this well, Mortensen (2003)

Let me say this first.

- 1 now this is **key.**
- 2 and as this well, Mortensen (2003)

Then, also:

- another **important** aspect.
- another **one**.
- links here.
- Going **back.**

List Environments

- You have environments `midli`, `midl`, `wideli`, `wideli`:
 - 1 medium space itemize
 - 2 medium space enumerate
 - 3 wide space itemize
 - 4 wide space enumerate

color math

cool

- you can do colored math with $\text{\textcolor{blue}{\alpha}}$: α
- for now there is only $\text{\textcolor{blue}{blue}}$ and $\text{\textcolor{red}{red}}$.

frame 3

- 1 We ate all of it
- 2 And then some more.
